RETROSPECTIVE

Looking back through our historic library of moulds, proportion>london has retrieved these four distinctive body shapes that denote significant changes in fashion silhouettes of bygone generations. Each shape is lovingly hand-made using traditional paper-mâché manufacturing techniques and upholstered in a choice of quality fabrics. Shown here are sumptuous silk mix velvets and over-painted calico with a distressed finish. Accessorised with stained and waxed wooden bases and necks and stove black metal, we additionally offer three of these shapes as 1/2 scale miniatures.
